

Product Description:

Able Assist Adjustable Transfer Aid provides a safe and easy solution for a Carer wishing to transfer a Client. Able Assist Adjustable Transfer Aid is ideal for users that can raise from a seated to a standing position. When transferring from room to room it enables the user to participate in the transfer which helps improve muscle tone by having their legs supported by the knee brace and they can hold on to the horizontal bar in front of them this also provides the carer with a safe and solution when transferring. The narrow width of the Able Assist enables the carer to manoeuvre through standard doorways with ease.

Rehabilitation Center

The Able Assist Transfer Aids is versatile enough to use for any and all patient moves. Suitable for homes, nursing homes or hospitals and other places; Transfers may be to and from beds, chairs, floor to bed, lateral transfers, bathing, and toileting.

Product Details

Fitted with 4 wheels that enhance manoeuvrability and enable users to be transferred with ease, 2 of the wheels have breaks that ensure maximum security and stability when transferring a patient. The Able Assist Transfer Aid can be wheeled directly up to a toilet, with wheels positioned on either side of the toilet to offer the user more dignity to sit down. To provide added stability the legs on the Able Assist can be spread by means of a simple push down pedal.
